Agency Advisory Council
Meeting Agenda
March 10, 2017
10:00 am – 12:00 pm
Southern Oregon ESD
Downstairs Conference Room, Medford

10:00 - 10:10  Welcome and Introductions  René
10:10 - 10:20  Update on hub monitoring  René
10:20 – 10:40 Identify existing parent voice opportunities – group discussion  Chelsea
10:40 - 11:10 Trauma Informed Care: Review Standard III/Workforce Dev’t  René
11:10 - 11:15 Request for program highlights for Appreciation Dinner  Teresa
11:15 - 11:40 System Mapping Opportunity  René
11:40 - 12:00 Program Announcements/Updates  All

SAVE-THE-DATE FOR OUR NEXT AGENCY ADVISORY COUNCIL MEETING:
April 14, 2017
AllCare
Community Meeting Room A
1701 NE 7th Street
Grants Pass
Southern Oregon Early Learning Services Hub
Agency Advisory Council

Date/Time: 2/10/17 10:00 am – 12:00 pm
Location: AllCare, Grants Pass

Members in Attendance: Jessica Allen (Advantage Dental), Cheré Brown (Josephine Community Library), Michelle Gallas (Imagine That...), Mary-Curtis Gramley (Family Nurturing Center), Patty Gutierrez (Listo), Rhonda Schock (Great Beginnings Child Care), Celia Siemer (DHS-SSP), Geoffrey Lowry (OCDC), Eileen Micke-Johnson (RCC), Cathleen Price (CCRN), Heidi Schultz (Douglas ESD EI/ELSE), Belle Shepherd (OHA), Felicity Elworth (Southern Oregon Head Start)

SOELS Staff Members Present: Rene Brandon, Teresa Slater, Sheila Fortman-Craun

Guests: Peter Buckley (Southern Oregon Success) via phone

CALL TO ORDER/WELCOME AND GREETINGS
10:15 am Rene Brandon called meeting to order. Introductions were made.

APPROVAL OF MINUTES

Agenda Updates/Changes

DATA ELEMENTS FROM DHS AND OHA: DISCUSSION FROM GROUP: WHAT DO WE WANT TO KNOW?
René met with Belle Shepherd (OHA) and Rosemary Jernigan (DHS-Self Sufficiency) regarding using data to make early learning investment decisions and build new partnerships. DHS & OHA can offer the largest amount of data as a starting point. AAC to brainstorm what is needed from data such as child level/parent data, what is the long term effect, how school districts are protective of data, can data be retrieved from the state, FNC, preschool promise, other entities. Below is the raw data brainstormed during the meeting. The list will be edited and formatted prior to sending to DHS OHA. Once the data is available, a data subcommittee will be convened to begin analysis and make recommendations for next steps.

Subgroups for data collection requests may include OnTrack, Homeless data, ARC, SO Head Start, OCDC, EHS, LISTO, WIC, Project Baby Check and Healthy Families, Housing Authority data, home visiting data, Hallie E. Ford Center for Healthy Children and Families at OSU collects data, school districts, and other to be determined.

Additional comments about this work included:

A primary goal of the early learning system is to find families who are not currently connected to any system partner but who would benefit from services.

We want to identify partner programs that are successful with thriving caseloads and success rates with low recidivism. Identify elements that make these programs successful to help the system learn.

**TRAUMA INFORMED PRACTICES DISCUSSION**

The group reviewed and discussed Trauma Informed Oregon’s Standards of Practice for Trauma Informed Care, Section II: Environment and Safety. There is demonstrated commitment to creating a welcoming environment and minimizing and/or responding to perceived challenges to safety [includes Physical Environment and aspects of Engagement and Involvement].

Elements reviewed included:

Ila. Physical Space (external environment, exits and entrances, waiting room, office, halls, lighting, restrooms, etc.) has been reviewed for actual and perceived safety concerns that may affect staff and individuals receiving services.

Ilb. Physical environment has been reviewed for “welcoming” quality, e.g., cleanliness, odor, color, furniture (in good repair and arranged for comfort), access to water, etc.

Ilc. Physical environment has been reviewed for cultural responsiveness.

Ilid. There is a designated “safe space” (permanent or temporary) for staff to practice self-care.
ll.e. Physical safety and crisis protocols for staff and for individuals receiving services are in place and are regularly practiced.

ll.f. Individuals who have received services from the agency have helped develop and/or have reviewed decisions about physical environment and/or safety protocols.
ll.g. There is a process in place to hear and respond to safety concerns that arise.

**DEBRIEF HUB TESTIMONY TO HOUSE EARLY CHILDHOOD & FAMILY SUPPORTS COMMITTEE ON 2/9/17**
Six hubs were invited to share the good work happening around the Stat in early learning. Rene’ was unable to attend in person but shared testimony electronically outlining how our AAC group is working together, as a community of practice, discussing how to move toward becoming trauma-informed organizations by accessing training, sharing resources, and discussing challenges and successes with implementation.

**TRAINING OPPORTUNITIES**
**SOAEC Together for Children** is February 24 for professional track and February 25 for parent track. Parents need to pre-register. Professionals registering for the professional track can use KPI grant funding for professional development.

**PAX Good Behavior Game – March 1-2, 2017**
There is a waiting list. They have 27 participants from Eagle Point registered.

**Strengthening Families Training Of Trainers – May 23-25, 2017**
This is a Train the Trainer opportunity. Training is focused on building resiliency family resiliency by promoting protective factors. SOELS will be accepting applications from individuals interested in becoming a trainer to trainer other organizations. Please contact Chelsea Reinhart at SOELS for more information.

**Kaleidoscope Facilitator Training – March 20-21, 2017**
This is a Train the Trainer opportunity. This training teaches educators how to offer school-based parent-child play groups that engage elementary school teachers, early learning educators, and families. Please contact Teresa Slater at SOELS for more information.

**CCRN Training calendar** provided and all trainings are free. Purple handout shared at meeting.

**PROGRAM UPDATES/ANNOUNCEMENTS**
- Kindergarten launch week is February 27 – March 3. Flyers shared.
- Head Start is beginning recruitment. Felicity will send out information.
- Douglas ESD EI/ECSE is outgrowing their facility and are looking for creative outside the box ideas for a new building. They had 37 referrals in a week. They need office space and evaluation rooms. Rhonda Schock from Great Beginnings offered after hours space in Rogue River.
- Southern Oregon Success will host a workshop on Trauma Informed Practices on April 11. A flyer will be available soon.
- SOELS Coming Together for Children dinner on April 26 which will showcase hub funded programs and celebrate the great work happening in Southern Oregon.
Meeting adjourned at 12:04 pm
Submitted by S. Fortman-Craun
### III. Workforce Development

Human Resource policies and practices reflect a commitment to trauma informed care for staff and the population served [includes **Training and Workforce Development**].

</table>

*Substance Abuse and Mental Health Services Administration, SAHMSA’s Concept of Trauma and Guidance for a Trauma-Informed Approach. HHS Publication NO. (SMA) 14-4884. Rockville, MD: Substance Abuse and Mental Health Services Administration, 2014.*
### Hiring and Onboarding Practices

**III.** Screening and interviewing protocols include applicant's understanding and prior experience/training regarding the prevalence and impact of trauma and the nature of trauma informed care.  
*What questions are asked during the interview process? How do you gauge an applicant’s ability to respond in a trauma-sensitive way to the individuals you serve (some organizations are hiring for 'warmth and emotional intelligence')?*

**IIIg.** Individuals with lived experience of our service system participate in the hiring process.  
*How? How is their feedback utilized?*

**IIIh.** New employee orientation and training includes the core principles of trauma informed care and affirms the agency’s commitment to ongoing trauma awareness and education for staff.  
*Describe.*

### Supervision and Support

**IIIi.** Staff receives regularly scheduled supervision.  
*Which staff? How often does this process happen?*

**IIIj.** Peer Support personnel, whether contracted or on staff, also receive regular support and guidance.  
*What is the process?*

**IIIk.** Supervision includes discussion of staff care and wellness.  
*Describe or provide example.*

**III.** Supervision includes learning and application of knowledge about Trauma and TIC.  
*Example of how this happens?*

**IIIm.** Supervisors have had training/consultation on supervising for TIC.  
*When and how does this occur?*

**III.** Performance reviews expect increased awareness, understanding and practice skills related to trauma informed care.  
*Describe.*

**IIIo.** Supervisors and staff can explain personnel policies; disciplinary actions reflect principles of transparency, predictability, and inclusiveness insofar as possible, given legal or contractual considerations.  
*Examples of how this is ensured?*

Southern Oregon Early Learning Hub

Early Learning Community of Practice to Better Serve Those with Adverse Childhood Events & Trauma

- Service Users Have Opportunity for Choice and Feel Empowered
- Service Users Are Asked for Feedback on Services They Receive and Feedback is Used to Improve Services
- Protective Factors/Resiliency are Fostered by Agencies
- Agencies Review & Update Internal Policies and Procedures, Share Samples with Partners
- Partner Agencies are Committed to Implementing Trauma-Informed Approaches
- Community-wide ACES & TIC Trainings Open to All Sector Partners
A Trauma Informed Workforce:
An introduction to workforce wellness

**Purpose.** This document provides foundational information about workforce wellness. It is intended for those who are beginning to consider ways to address workforce wellness in their programs and organization by providing background and definitions.

**Background.** Working with survivors of trauma can be extremely rewarding, but can also be challenging. Without direct attention to the needs of care providers, providing services to trauma survivors can increase the risk for burnout, vicarious trauma, and secondary traumatic stress. External factors and stressors, as well as workers’ personal trauma histories can add to the risk.

Whether or not someone has a history of trauma, bearing witness to human suffering and adversity can be deeply impactful. Reactivity related to unresolved trauma among workers and those they serve can make working conditions more difficult and can undermine health and safety. Providing effective and sensitive care to survivors (trauma-informed care), requires an emotionally healthy, competent, and well supported workforce.

**Definitions.** The terms burnout, secondary traumatic stress, vicarious trauma, and compassion stress or fatigue are often used interchangeably. There are, however, important distinctions to consider when developing resources. It is important when addressing workforce wellness that organizations identify what resources and strategies the organization will provide. Workforce wellness strategies need to not only address the importance of self-care but identify how the organization will work to reduce stress, address vicarious trauma, and support self-care activities. For example, for an employee who is experiencing secondary traumatic stress, the organization would make trauma specific services available (e.g. counseling, EMDR). In addition to providing access to services organizations will likely need to accommodate employees’ schedules.

---

**Burnout:** The term "burnout" has been applied across helping professions and refers to the cumulative psychological strain of working with many different stressors. It often manifests as a gradual wearing down over time.

**Vicarious Trauma:** Vicarious traumatization is the cumulative effect of working with survivors of trauma and includes cognitive changes resulting from empathic engagement and a change to your worldview.

**Secondary Traumatic Stress:** The term "Secondary Traumatic Stress" is used to describe professional workers' subclinical or clinical signs and symptoms of PTSD that mirror those experienced by trauma clients, friends, or family members. While it is not recognized by current psychiatric standards as a clinical disorder, many clinicians note that those who witness traumatic stress in others may develop symptoms similar to or associated with PTSD.

**Compassion Stress:** Compassion stress characterizes the stress of helping or wanting to help a trauma survivor. Compassion stress is seen as a natural outcome of knowing about trauma experienced by a client, friend, or family member, rather than a pathological process.
Health

1. Engage in regular physical activity to improve cardiovascular health and reduce stress.
2. Maintain a healthy diet rich in fruits, vegetables, and whole grains.
3. Limit alcohol and avoid smoking.
4. Get enough sleep every night to ensure optimal physical and mental health.

Risk Factors. The following factors are related to workplace stress and disease:

- Emotional exhaustion
- Feeling burnt out
- Feeling drained and fatigued
- Difficulty concentrating and remembering
- Physical symptoms such as headaches and muscle aches
- Feeling overwhelmed and unable to cope
- Feeling irritable and short-tempered
- Feeling isolated and unsupported
- Feelings of hopelessness and helplessness
- Thoughts of suicide or self-harm

Protective Factors. These are personal and organizational strategies that mitigate the impact of workplace stress:

- Strong social support
- Positive coping strategies
- Meaningful work
- Opportunities for growth and development
- Fair treatment and respect
- Opportunities for advancement and recognition
- A positive work environment
- Access to resources for stress management

Team spirit: Feeling part of a team (not just a group), department, or project and having social support.
WHAT YOU NEED TO KNOW: These questions were developed to review a specific policy about service exclusion through a trauma informed lens. Some of these questions may be helpful as you are developing or reviewing policies. (TIO, 2013)

Guide to Reviewing Existing Policies

Safety:

Does this policy put service recipients’ safety at risk?
   If so how? What precautions are in place to prevent, mitigate, or respond?
Does this policy put staff’s safety at risk?
   If so how? What precautions are in place to prevent, mitigate, or respond?
Is the policy clear and understandable to those who implement this policy?
Are all impacted parties trained on this policy?
   Who, how, when, frequency?
Are service users informed of this policy?
   Who, how, when, frequency?
Are partner agencies informed of this policy?
   Who, how, when, frequency?
Is this policy carried out consistently across programs, staff, and agencies?
   When it is not consistent is there an explanation given (consistent but flexible)?
Does this policy ask staff to work outside of their job or skill level? What support do they have?
Does this policy result in confidences being broken?
Can staff from one program explain another program’s decision or have a way to find this out?
Are policy decisions communicated in a timely manner within the agency?

Restore Power:

Are policy decisions made in collaboration with other staff?
Do staff know what they can decide without approval?
Are staff trained in de-escalation so as to avoid unnecessary power struggles?
Are policies and procedures easily accessible (e.g. location, language)?
Are skills necessary to implement the policy provided and practiced (simulations)?
Is it clear how and why this policy was developed (transparency)?
**Value Individuals:**

Have staff been consulted about the policy?

Have service recipients been consulted about the policy?

Are mental health advanced directives in place where necessary?

Have service recipients been asked what is helpful and not asked about the implementation of this policy?

Are staff debriefed after events (exclusions, suicidal calls, police calls, aggressive behavior)?

    How, when, by whom?

Have staff been asked what is helpful and not asked about implementing this policy?

Do all parties have a voice in decisions? How? If not, why not or when?
Hosting a Meeting Using Principles of Trauma Informed Care

Preparing for the Meeting

- Have water and healthy snacks available- try to limit processed sugar
- Have fidget toys
  - Helps with focus
  - Have a few options- too many though can be a distraction
  - Basket on the table or few piles- Accessible to all
  - Options: Rubber bands, crayons and paper, stress balls, play dough, pipe cleaners
- Room Environment
  - Be mindful of space- too big or small?
  - Ensure there is access to the door
  - Seating- not too close
  - Temperature
  - Outside distractions
  - When variables can’t be controlled- debrief the group on what things may come up

Starting the Meeting

- Description of expectations and reminders about caring for yourself
  - Length of meeting
  - Moving around to be comfortable- standing, walking, stretching
  - Directions to restrooms
  - Break times, however can leave when needed
- Right brain activity
  - Icebreaker or sharing
  - People can connect before moving into content
  - Remind people that they can “pass”
  - Model the game to set clear expectations
  - Activities should not include touching or revealing personal trauma information

During the Meeting

- Think about materials
  - Many formats as possible: paper, screen, etc.
  - Provide in advance
- Language
  - Explain acronyms
  - Have a list of frequently used acronyms on the wall
  - Reflect on the choice of words that you use
- Take breaks
  - Have scheduled breaks
IV. Services and Service Delivery. Service delivery reflects a commitment to trauma informed practice [includes activities related to Screening, Assessment, Treatment Services, aspects of Engagement and Involvement, and Cross-Sector Collaboration *].
